Chairman of the exhibition:

Ilpo Pohjonen, Asterintie 16a, 01350 Vantaa, Finland, Ilpo.Pohjonen@gmail.com

Judges for Open, Travel and Street Life sections:

Joseph Tully, Ireland

I have been involved in photography since 1965 and spent some years working professionally with portraiture and weddings. I was one of the founding members of the Irish Photographic Federation IPF.

Viljo Kuronen, Finland, EFIAP/b

I have been involved in photographing over 60 years. Through life studying, activities in two photography clubs and organizing international photography salons in the Association of Finnish Camera Clubs. My main favorites are Travel, street and Nature photography.

Nenad Nicolic, Serbia, AFIAP, QPSA, GPU Aphrodite, GMABRP

The Art Director of Serbia PHOTO Association, Serbia

I was born in 1958, Belgrade, Serbia. From an early age, I was interested in art, primarily in photography mostly B&W, painting, music, and literature.

I love the light and all that it brings as a gift to follow when it plays. I have exhibited photographs in many showrooms in Serbia, but also worldwide. For the past 10 years I have been a member of many international juries in the field of art photography.

My life motto is: "Primum non nocere", "First, do no harm".

Monica Wennblom, Sweden, EFIAP/g, NSMiF/p

Since late 1970s I have been a member of the Swedish Photographic Movement that is photo clubs. From 2013 I have been the FIAP Liaison Officer for Sweden. For the moment I am holding the Distinction of EFIAP gold and the NSMiF platinum.

Judges for Nature and Close-up Nature sections:

Gil Rossell Duchamps, Andorra

FIAP's World Cup director in 11th World Cup for clubs 2016 and 12th FIAP's World Cup for Clubs 2017.

I have been a member in many juries. I am especially keen on photographing nature, wild life and macro. Exhibition in 2020: "JUST ANIMALS" in FIAP's Exhibition Center Athens-Hellenic Photographic Society.

Reima Flyktman, Finland, NSMiF/g

Nature document writer and nature photographer, Finland

I've been taking photos since I was young. Since 2012 I have focused on photographing only nature but everything there: plants, animals, landscapes and so on. I have written books of photography and nature with my own pictures.

Roald Synnevåg, Norway, EFIAP-D3, MFIAP, EsFIAP, GMPSA, GPSA, APSA, HonENFFF, MNFFF-B, NSMiF-P, GPU, Hermes, GPU CRU 4

I started taking photographs in 1978 and joined Bekkalokket Photo Club in Bergen, Norway, the same year. In 2015 I was one of the founders in the Nordic Society of Photography, and have been secretary there since then. In 2007 I was appointed as honorary member of NSFF, and in 2012 I was appointed as honorary president of NSFF- Norsk Selskap For Fotografi.

Peter Christiansen, Sweden

Since my youth, I have had photography as my hobby nearly 50 years. Over the years I have participated in numerous exhibitions. I have been actively taking part in many international exhibitions as a judge since 2012.

Greetings of the Chairman of the Salon

We have taken through the 10th Obsession of Light salon. Thanks to the high-quality image supply, we were able to put together a great exhibition. The supply was once again versatile and abundant, and making choices was challenging and caused a discussion between the options.

Once again, we are living in the middle of a big transition phase in the world of pictures and photography. Artificial intelligence is coming to influence the world of photography at a growing velocity. The first attempts at images produced with artificial intelligence were strange, and people also often became six-fingered. However, development is moving forward at a breakneck pace, and distinguishing an image produced by artificial intelligence from a photographed work will be very challenging in the future.

On the other hand, the visual material used as raw material by artificial intelligence is produced by photographers. In the same way, artificial intelligence also takes a model for its products from the material produced by the photographers. So, the end products are, at least for the time being, manipulated composites. Everyone can think about where to share their photos, and tracking parts of your own photos under manipulation is not easy, at least with current tools.

What we are seeing now is just an early phase in the field of artificial intelligence. What the situation will be in a year or a few years from now is difficult to predict. As the artificial intelligence applications are developing, so are all of us photographers. Artificial intelligence simulates human activity, learning, reasoning and creativity. Therefore, we always have the opportunity to keep our lead against artificial intelligence. We wish all our participants a wonderful picturesque and creative future in a world that is changing alongside artificial intelligence products.

Along with all the participants, we thank the judges of the salon for their contribution to making this exhibition possible.

Exhibition Requirements

By participating this salon the authors expressly agree to FIAP document 018/2017 « Conditions and regulations for FIAP Patronage » and FIAP document 017/2017 « Sanctions for breaching FIAP regulations and the red list ». The authors must be aware of chapter II « Regulations for International photographic events under FIAP patronage » of FIAP document 018/2017, dealing under Section II.2 and II.3 with the FIAP participation rules, the sanctions for breaching FIAP regulations and the red list.”

The details of the participants for the possible presence of authors whose participation in FIAP salons is prohibited will be checked with the list sent by the FIAP Patronage Service.

Any author, whose image shows any suspicions about the compliance with FIAP regulations or definitions, can be requested by the organiser or by FIAP, to submit the original capture file (file containing the data recorded by the sensor; i.e.: the RAW or the original unretouched JPEG files) plus the file of the images immediately before and immediately following the questionable image. If he/she fails to provide what is required, he/she can be sanctioned.

The names of sanctioned entrants will be put on a list, which will be sent to the organisers of FIAP salons. Their participation in any event of FIAP will be restricted or banned depending on the case. In addition they cannot be appointed as judges of FIAP salons, in a salon under FIAP patronage, organise a salon with FIAP patronage, nor apply for FIAP distinctions and they lose the right to use any FIAP distinctions they have formerly received.

IMPORTANT: Concerning digital entries, authors must preserve intact with no alteration, the original metadata (EXIF) of images. In case of dispute relating to compliance with FIAP regulations, the fact of FIAP not being able to access this important data could result in the author being sanctioned.

Any person who is found guilty of using photographic material that was not captured in camera by that person will be excluded for life from FIAP activities.

Copyright

The images submitted will only be used in the context of this salon for which the patronage was requested. Under no circumstances will these pictures be used for other purposes except for ethics investigation cases.

Image and file sizes

All images must be maximum 1920 pixels horizontal and 1080 pixels vertical side including any borders. Images must be saved as jpg files of a good quality. The file size of a picture must not exceed 2 MB. Oversized images will be rejected and the entrant will be required to resubmit their entry with properly sized images. The colour profile must be sRGB. The organizer is planning to arrange an exhibition

with prints of the awarded works. It is recommended to participate with images with before said pixel dimensions and best quality jpg-compression. The organizer may ask for larger files for printing to exhibition and for the catalogue.

The Exhibition will be conducted in accordance with the rules of the FIAP.

Judgement

The judging will take place remotely as an on-line judging. The images of each category will be judged individually. All judges will be using equipment capable of displaying images at 100%.

The awards will be defined together. The works are shown to the jury either with Samsung 4K display or by Optoma beamer with 1920x1080 resolution by its nature.

An entrant's images will not be presented to the judges consecutively. An entrant's four images will be distributed throughout four rounds of judging in that section. Distribution of images will be in the same round order as submitted by the entrant.

If at any time, it is determined in the reasonable discretion of the exhibition organizer or the judges before, during, or after the judging of an exhibition that an entrant has submitted entries where one or more images may fail to comply with these Conditions of Entry, including the stated definitions, the exhibition organizers reserve the right to delete the entry from the exhibition and void any or all acceptances or awards in connection with the exhibition. Fees may be forfeited or refunded in these circumstances. The entrant acknowledges that the decision of the exhibition organizers or the judges is final.

In order to ensure that images comply with the Conditions of Entry and definitions, the exhibition organizers may carry out reasonable measures to verify that:

- The images are the original work of the entrant and
- The images comply with the rules and definitions as set out in these Conditions of Entry.

These steps include, but are not limited to, questioning any entrant, requiring the submission of RAW files or other digital files representing the original capture of the submitted image(s), confronting the entrant.

Data protection

By entering this exhibition, you are explicitly consenting to the personal details you have supplied, including email addresses, being held, processed and used by the exhibition organizers for purposes associated with this exhibition. You also explicitly consent to such information being sent to organizations that have accorded official recognition, patronage or accreditation to this exhibition. You acknowledge and accept that entering this exhibition means that the status and results of your entry may be made public.

Definition of Nature Photography

Nature photography is restricted to the use of the photographic process to depict all branches of natural history, except anthropology and archaeology, in such a fashion that a well-informed person will be able to identify the subject material and certify its honest presentation. The story telling value of a photograph must be weighed more than the pictorial quality while maintaining high technical quality. Human elements shall not be present, except where those human elements are integral parts of the nature story such as nature subjects, like barn owls or storks, adapted to an environment modified by humans, or where those human elements are in situations depicting natural forces, like hurricanes or tidal waves. Scientific bands, scientific tags or radio collars on wild animals are permissible. Photographs of human created hybrid plants, cultivated plants, feral animals, domestic Vantaa Photoclub The 10th Obsession of Light 2023 – International Photo Salon by Vantaa Photoclub, Finland Page 11 (13) animals, or mounted specimens are ineligible, as is any form of manipulation that alters the truth of the photographic statement.

No techniques that add, relocate, replace, or remove pictorial elements except by cropping are permitted. Techniques that enhance the presentation of the photograph without changing the nature story or the pictorial content, or without altering the content of the original scene, are permitted including HDR, focus stacking and dodging/burning. Techniques that remove elements added by the camera, such as dust spots, digital noise, and film scratches, are allowed. Stitched images are not permitted. All allowed adjustments must appear natural. Colour images can be converted to greyscale monochrome. Infrared images, either direct-captures or derivations, are not allowed.

Images used in Nature Photography competitions may be divided in two classes: Nature and Nature close-up.

Images entered in Nature sections meeting the Nature Photography Definition above can have landscapes, geologic formations, weather phenomena, and extant organisms as the primary subject matter. This includes images taken with the subjects in controlled conditions, such as zoos, game farms, botanical gardens, aquariums and any enclosure where the subjects are totally dependent on man for food.

Definition of the black and white photography

(monochrome)

A black and white work fitting from the very dark grey (black) to the very clear grey (white) is a monochrome work with the various shades of grey. A black and white work toned entirely in a single colour will remain a monochrome work able to stand in the black and white category; such a work can be reproduced in black and white in the catalogue of a salon under FIAP Patronage. On the other hand a black and white work modified by a partial toning or by the addition of one colour becomes a colour work (polychrome) to stand in the colour category; such a work requires colour reproduction in the catalogue of a salon under FIAP Patronage.

Definition of “Traditional Photo”

A traditional photograph maintains the original single capture image content with minimal adjustments which should not alter the reality of the scene and should appear natural. Rearranging, replacing, adding to or removing any part of the original image except by cropping is strictly forbidden.

HDR (High Dynamic Range) and focus-stacking techniques, whether done in camera or postcapture are strictly forbidden.

Travel Definition

A Photo Travel image expresses the characteristic features or culture of a land as they are found naturally. There are no geographical limitations. Images from events or activities arranged specifically for photography, or of subjects directed or hired for photography are not permitted. Close up pictures of people or objects must include features that provide information about the location.

Techniques that add, relocate, replace or remove any element of the original image, except by cropping, are not permitted. The only allowable adjustments are removal of dust or digital noise, restoration of the appearance of the original scene, and complete conversion to greyscale monochrome. Other derivations, including infrared, are not permitted. All images must look natural
